

DEPARTMENT OF BIOSTATISTICS

Shumei S. Sun, Ph.D.

Professor and chair

biostatistics.vcu.edu (<http://www.biostatistics.vcu.edu/>)

The Department of Biostatistics is committed to excellence in providing a graduate training program, conducting multidisciplinary collaborative biomedical research and developing new statistical methods. The department offers M.S. and Ph.D. programs in biostatistics, with concentrations in genomic biostatistics at both levels and an additional concentration in clinical research and biostatistics at the master's level. The majority of the department's graduate students are supported through collaborative projects and partnerships with industry. Students and faculty in the department are involved in leading research funded by the NIH in public health-spanning areas such as cancer, dental health, clinical trial methodology, neurology and cardiac health.
