

# INFORMATION SYSTEMS, MASTER OF SCIENCE (M.S.) WITH A CONCENTRATION IN HEALTH CARE MANAGEMENT

## Program accreditation

Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu>)

## Program goal

The Master of Science in Information Systems program is designed to prepare students for specialized roles using information systems to support organizations. The program is intended to provide a graduate-level, business-technology-oriented curriculum that focuses on the design and development of information systems to solve real-world problems. Graduates of the program are expected to be able to take significant roles in planning, organizing, managing, designing, configuring and implementing systems using state-of-the-art technologies within organizations.

## Student learning outcomes

1. Graduates should be capable of communicating and networking effectively within their profession and within their organizations, serving the profession by applying this knowledge broadly and maintaining key technical expertise in order to sustain required levels of competitiveness.
2. Graduates must have an understanding of information technology as it applies to business contexts and the skill to apply this technology effectively in specific circumstances.
3. Graduates must be able to develop efficient and effective IS solutions using appropriate technologies that can deliver competitive advantages to organizations.
4. Graduates must be able to develop and incorporate changes in the planning and management of IS resources based on an increased understanding of the dynamic changes in the organization, IS and global environments.

## VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The VCU Graduate Bulletin website documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the **Graduate School website** and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

Visit the **academic regulations section** for additional information on academic regulations for graduate students.

## Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

Visit the **academic regulations section** for additional information on degree candidacy requirements.

## Graduation requirements

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

Visit the **academic regulations section** for additional information on graduation requirements.

## Other information

School of Business policies and procedures for graduate master's degree students are available on the school's website at [business.vcu.edu/graduate-studies/current-graduate-students](http://business.vcu.edu/graduate-studies/current-graduate-students) (<http://business.vcu.edu/graduate-studies/current-graduate-students>).

Apply online at [graduate.admissions.vcu.edu](http://graduate.admissions.vcu.edu) (<http://www.graduate.admissions.vcu.edu>).

## Admission requirements

Degree:	Semester(s) of entry:	Deadline dates:	Test requirements:
M.S.	Fall	Jul 1	GMAT or GRE
	Spring	Nov 1	
	Summer	Mar 1	

In addition to the general admission requirements of the VCU Graduate School (<http://bulletin.vcu.edu/graduate/study/admission-graduate-study/admission-requirements>), applicants to the master's program in business administration must submit an up-to-date resume.

## Degree requirements

Students applying to the Master of Science in Information Systems must show evidence of competence in selected prerequisite areas of information systems including: application programming, systems analysis and design, database, telecommunications and hardware/software. Evidence of this competence may include formal course work, comparable training within a work environment or significant, relevant and recent work experience in the field. Students enrolled as majors

in the program who do not have a formal background or equivalent training must take the appropriate undergraduate courses to satisfy the prerequisites prior to taking master's program courses. Students without an accredited bachelor's degree or post-baccalaureate certificate in fields such as computer science or information systems will likely need to complete several undergraduate prerequisite courses. Prerequisites are determined by the faculty adviser at the time of admission.

In addition to the VCU Graduate School graduation requirements (<http://bulletin.vcu.edu/academic-regs/grad/graduation-info>), students who do not have a business degree must complete a minimum of two 500-level foundation courses (6 credit hours). Foundation courses may be waived for students who present satisfactory equivalent preparation at either the undergraduate or graduate level. Students who are required to take foundation courses may do so after admission. The foundation courses required will vary depending upon the student's background, career interests and the chosen area of specialization. Students applying to the program should consult with the master's program adviser to determine the foundation courses required for a particular area.

## Prerequisite undergraduate courses

Course	Title	Hours
INFO 202	Introduction to E-business Technologies	3
INFO 300	Information Technology Infrastructure	3
INFO 350	Programming	3
INFO 361	Systems Analysis and Design	3
INFO 364	Database Systems	3
INFO 370	Fundamentals of Data Communications	3
MATH 211	Mathematical Structures	3
A course in calculus		

## Curriculum requirements

Course	Title	Hours
<b>Foundation courses</b>		
0-6 credits; may be waived for demonstrated equivalence.		
ACCT 507	Fundamentals of Accounting	
or ECON 500	Concepts in Economics	
or FIRE 520	Financial Concepts of Management	
SCMA 524	Statistical Fundamentals for Business Management	
<b>Core courses</b>		
INFO 610	Analysis and Design of Database Systems	3
INFO 620	Data Communications	3
INFO 630	Systems Development	3
INFO 640	Information Systems Management	3
<b>Information system electives</b>		
Select four to six of the following:		12-18
CISS 634	Ethical, Social and Legal Issues in Computer and Information Systems Security	
INFO 609	Data-centric Re-engineering Analysis/Planning	
INFO 611	Data Re-engineering	
INFO 614	Data Mining	

INFO/CISS 616	Data Warehousing
INFO 632	Business Process Engineering
INFO 641	Strategic Information Systems Planning
INFO 642	Decision Support and Intelligent Systems
INFO 643	Information Technology Project Management
INFO/CISS 644	Principles of Computer and Information Systems Security
INFO 646	Security Policy Formulation and Implementation
INFO 658	Securing the Internet of Things
INFO 664	Information Systems for Business Intelligence
INFO 691	Topics in Information Systems
INFO 693	Field Project in Information Systems
INFO 697	Guided Study in Information Systems

### Other approved electives

A maximum of two non-INFO electives may be completed from the preapproved list below. 0-6

SCMA 603	SAP ERP and Supply Chain Management
SCMA 632	Statistical Analysis and Modeling
SCMA 643	Applied Multivariate Methods
SCMA 648	Analytics for Organizational Decision-making
SCMA 669	Developing and Implementing Forecasting Methods for Business

### Required concentration courses

FMBA 614	Health Care Management I: National Perspective	3
FMBA 615	Health Care Management II: Employer's Perspective	3
FMBA 616	Health Care Management III: Industry Perspective	3

## Total graduate credit hours required (minimum) 39 (45 if all foundation courses are taken)
