Program goal
The purpose of the Master of Business Administration program at VCU is to prepare individuals for the responsibilities of management. As students at VCU, individuals will learn the functions and techniques of effective management. The student also will come to understand the environmental and economic factors that affect decision-making in organizations. In short, the student will know what to do as future events unfold that affect his/her firm or organization.

An M.B.A. from VCU benefits students at various points in their careers. Individuals who have recently received their baccalaureate degrees may choose to refine their business skills while their undergraduate training is fresh. Individuals with work experience often find that an M.B.A. is the key to rapid promotion or a career change. Finally, an M.B.A. from VCU meets the needs of students who recognize that the best preparation for an uncertain future is continuous learning.

Student learning outcomes
1. Leadership and teamwork: Students will develop abilities to influence others and collaborate in teams.
2. Communication: Students will recognize the importance of and effectively demonstrate strong communication skills.
3. Analytical thinking: Students will demonstrate the ability to organize and interpret qualitative and quantitative information to make effective decisions.
4. Strategic thinking: Students will demonstrate the ability to apply appropriate conceptual frameworks to lead the organization in setting and meeting its goals and objectives.
