SPECIAL EDUCATION, MASTER OF EDUCATION (M.ED.) WITH A CONCENTRATION IN GENERAL EDUCATION

Program goal

The Master of Education in Special Education program prepares graduates for work in one of three areas: early childhood, severe disabilities or general education. Applicants who do not already hold a teaching license must meet both licensure and degree requirements prior to the awarding of the Master of Education degree unless exempted as a professional from another discipline. Students should plan carefully with their adviser to ensure that the appropriate courses and experiences are completed. Successful completion of the degree program leads to endorsement in early childhood special education, severe disabilities or general curriculum.

The Master of Education in Special Education general education concentration, which can lead to an endorsement in the special education general curriculum, is designed to prepare graduates with the professional knowledge and skills needed to work in a variety of settings.

1. General education classrooms (where children with special needs are being collaboratively taught)
2. Resource, modified resource or collaborative resource rooms
3. Self-contained settings or classrooms in varied urban, suburban or rural areas
4. Residential programs
5. Various community environments

Special training is provided in teaching reading and language, behavior management, and the use of interactive strategies that teach positive social skills. Candidates are prepared to work with students in completing a variety of transitions, such as from special education to the general education classroom or from high school to employment and independent living.

Through course work, the general education concentration will encompass broad concepts of education, research, development, related disciplines and special education to build a foundation of professional knowledge and understanding. Specialized courses develop the intensive diagnostic, remedial, decision-making and consultative skills and understandings required of a professional in a special education-general education setting, including the ability to recognize educational and social problems, to formulate effective individualized instructional interventions using a variety of methodologies and modifications, to incorporate accommodations and transitions into program plans and to consult productively with appropriate personnel in the development of maximum educational opportunities for students with high-incidence disabilities. In addition to course work, candidates will create an electronic portfolio that will showcase their knowledge, skills and dispositions in the special education general curriculum.

The program offers candidates the opportunity to complete clinical placements in their own classroom or school with approval from VCU faculty and supervision by trained personnel. Placement opportunities for clinical experiences include a range of public and private schools and mental health programs that allow graduate students to select field experiences that are consistent with their professional goals. Previous teaching experience is valued, but not required. Students will have the opportunity to complete a practicum in addition to the externship. When students complete the program, they are eligible for licensure by the Virginia Department of Education with an endorsement to teach students enrolled in special education, general curriculum in grades K-12. Candidates are offered the option of taking a full-time or an on-the-job externship for a semester.

Student learning outcomes

1. Demonstrate content knowledge in special education: Candidates demonstrate content knowledge in special education as evidenced by the final portfolio and case-study paper.
2. Effectively plan instruction: Candidates demonstrate that they can effectively plan classroom-based instruction or activities for other roles as special educators as evidenced by the UDL/collaboration unit plan.
3. Effectively apply knowledge, skills and dispositions (clinical experience): Candidates demonstrate knowledge, skills and dispositions are applied effectively in practice as evidenced by the clinical evaluation continuum.
4. Effect on student learning: Candidates demonstrate effects on student learning as evidenced by the unit plan with curriculum-based measure – secondary.
5. Demonstrate CEC standards proficiency: Candidates further demonstrate proficiency on CEC competencies as evidenced by the assessing a child/IEP assignment, the multicultural poster and paper, and the functional behavior assessment/behavior intervention plan.

VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The VCU Graduate Bulletin website documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the Graduate School website (http://www.graduate.vcu.edu) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

Visit the academic regulations section for additional information on academic regulations for graduate students. (http://bulletin.vcu.edu/academic-regs)

Degree candidacy requirements

A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master’s or doctoral status according to the degree candidacy requirements of the student’s graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student’s
faculty regarding the student’s academic achievements and the student’s readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

Visit the academic regulations section for additional information on degree candidacy requirements. (http://bulletin.vcu.edu/academic-regs/grad/candidacy)

**Graduation requirements**

As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

Visit the academic regulations section for additional information on graduation requirements. (http://bulletin.vcu.edu/academic-regs/grad/graduation-info)

Apply online at graduate.admissions.vcu.edu (http://www.graduate.admissions.vcu.edu).

In addition to the general admission requirements of the VCU Graduate School (http://bulletin.vcu.edu/graduate/study/admission-requirements), the following requirements represent the minimum acceptable standards for admission:

1. Bachelor’s degree in an appropriate discipline
2. Three letters of recommendation addressing the student’s potential for graduate study in education
3. Student’s written statement concerning career interests
4. Transcripts of all previous college work
5. Interview

Additionally, there are several tests that students must pass for admission to teacher preparation, admission to student teaching and licensure in Virginia. Students should consult the Student Services Center (http://www.soe.vcu.edu/student-services-center) section on the School of Education website for current testing requirements.

Applicants who do not have a provisional or professional collegiate teaching license in special education must take SEDP 630 as a prerequisite course.

Applicants who hold bachelor’s degrees in areas other than special education must complete a review process with program faculty as part of the admissions process.

Admission to clinical experiences in schools requires a background check and fingerprinting.

**Degree requirements**

In addition to general VCU Graduate School graduation requirements (http://bulletin.vcu.edu/academic-regs/grad/graduation-info), students are required to complete course work in core and elective courses.

1. Credit hour requirements: Students are required to complete a minimum of 37 credit hours.
2. Grade requirements: Receipt of a grade of C or below in two courses constitutes automatic dismissal from the program. Courses with a grade below C cannot be used to satisfy degree requirements.
