NURSING, MASTER OF SCIENCE (M.S.) WITH A CONCENTRATION IN ADULT-GERONTOLOGY ACUTE CARE NURSE PRACTITIONER

The VCU School of Nursing adult-gerontology acute care nurse practitioner concentration prepares graduates for advanced practice registered nurse roles by developing the knowledge and skills needed to manage acutely ill adults, ranging from adolescents to the elderly, through all phases of their hospitalization. Students learn to manage patients through comprehensive physical and psychosocial assessments, use of decision-making/diagnostic reasoning processes, performance of advanced practice skills and procedures, and implementation of evidence-based treatment strategies. Graduates of the AGACNP concentration are prepared to diagnose and manage complex health problems of adults across the life span, including acute/critical illness and injuries, as well as exacerbations of chronic conditions.

The AGACNP generally works in an acute care setting, often within a multidisciplinary team focused on the provision of evidence-based care to adults who are acutely ill. The sphere of influence of the nurse practitioner is that of the patient.

Graduates of the AGACNP concentration are eligible to apply for certification as an AGACNP by the American Nurses Credentialing Center. Certification as an AGACNP by the American Nurses Credentialing Center is one of the requirements for graduate students in the AGACNP concentration.

Program goals
Graduates will achieve advanced nursing practice competencies by demonstrating:

1. Systems and organizational leadership
2. Implementation of advanced nursing practice interventions
3. Effective use of research and technology
4. Systematic evaluation of interventions and outcomes

Student learning outcomes
Graduates will be able to:

1. Demonstrate core competencies in their advanced practice specialties
2. Integrate nursing and related sciences into the delivery of advanced nursing care to diverse populations and systems of health care delivery
3. Apply ethical analysis and clinical reasoning to assess, intervene and evaluate advanced nursing care delivery
4. Understand the implications of social, cultural, economic, policy and organizational systems that impact practice and outcomes
5. Synthesize evidence for practice to determine appropriate application of interventions across diverse populations and settings
6. Use quality processes and improvement science to evaluate care and ensure patient safety for individuals, populations and systems
7. Integrate organizational science and technology to make changes in the care environment to improve health outcomes and practice efficiency

VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The VCU Graduate Bulletin website documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

Degree candidacy requirements
A student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master’s or doctoral status according to the degree candidacy requirements of the student’s graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student’s faculty regarding the student’s academic achievements and the student’s readiness to proceed to the final research phase of the degree program.

Graduation requirements
As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Other information
VCU School of Nursing Student Policy and Information handbooks (http://nursing.vcu.edu/about-us/resources) are located on the school’s website.
Our international and non-native English-speaking students bring different perspectives and new thinking to our nursing programs. To ensure that all incoming student are prepared for the school’s academic rigor, all international applicants and non-native English speaking applicants without a degree from a U.S. high school, college or university must provide additional information with their applications according to the English language proficiency guidelines on the program admission tab.

Visit the School of Nursing website for program-specific application instructions (http://nursing.vcu.edu/admission/application-instructions/)

To be considered for admission to the School of Nursing, applicants must:

1. Meet the general admission requirements of the VCU Graduate School (http://bulletin.vcu.edu/graduate/study/admission-graduate-study/admission-requirements)
2. Be eligible for readmission or in good standing at the last college attended
3. Be a baccalaureate (or higher) graduate of an accredited (ACEN, CCNE or CNEA) nursing program
4. Have a current unrestricted R.N. license or authorization to practice as an R.N. in the U.S.
5. Complete a minimum of three credit hours in statistics with a minimum grade of B
6. Provide additional information with the application according to the English language proficiency guidelines in the VCU Bulletin for applicants who are international or non-native English speakers without a degree from a U.S. high school, college or university

School of Nursing B.S. graduates who successfully completed the requirements of the VCU Honors College are eligible for guaranteed admission to the master’s program or the post-B.S. to Ph.D. program upon submission of an application form and personal statement. Requirements for references are waived.

Degree requirements

Forty-nine graduate credit hours are required for the adult-gerontology acute care nurse practitioner concentration.

In addition to general VCU Graduate School graduation requirements (http://bulletin.vcu.edu/academic-reg/grad/graduation-info), a candidate for the degree of Master of Science in Nursing must be recommended by the faculty and must:

1. Meet academic requirements of the Graduate School
2. Complete all requirements for the prescribed curriculum within six calendar years of the first registration for work to be credited toward the degree
3. Earn a minimum grade of B or pass grade in all nursing courses
4. Earn a minimum cumulative grade-point average of 3.0 on a 4.0 scale in all work presented for graduation

5. Conform to School of Nursing policies in respect to pass/fail grading for course work or thesis study

The degree will be granted only after all requirements have been fulfilled and all fees to the university have been paid. Degrees are not granted in absentia unless written request is made to the dean and permission is granted.
