PHARMACEUTICAL SCIENCES, MASTER OF (M.P.S.) WITH A CONCENTRATION IN PHARMACOECONOMICS AND HEALTH OUTCOMES

Program goal
The School of Pharmacy offers the highest quality of teaching in the pharmaceutical sciences graduate program at the Master of Pharmaceutical Sciences level. The M.P.S. is a non-thesis degree.

Student learning outcomes
1. Knowledge of research in pharmaceutical sciences
   Candidates should demonstrate a general knowledge of the elements of the pharmaceutical sciences and a detailed knowledge of their areas of research, including an appropriate familiarity with the research literature, policies and procedures, and methodology pertaining to their fields.
2. Design experiments in pharmaceutical sciences
   Candidates should demonstrate an appropriate level of skill in the design of experimental protocols and the technical conduct of experimentation related to their research.
3. Demonstrate appropriate communication skills
   Candidates should demonstrate that an appropriate level of oral, written and visual communication skill has been acquired.
4. Identify problems in pharmaceutical sciences
   Candidates should demonstrate an appropriate level of skill in the identification of meaningful problems in the pharmaceutical sciences and the design of and implementation of appropriate problem-solving methods.

VCU Graduate Bulletin, VCU Graduate School and general academic policies and regulations for all graduate students in all graduate programs

The VCU Graduate Bulletin website documents the official admission and academic rules and regulations that govern graduate education for all graduate programs at the university. These policies are established by the graduate faculty of the university through their elected representatives to the University Graduate Council.

It is the responsibility of all graduate students, both on- and off-campus, to be familiar with the VCU Graduate Bulletin as well as the Graduate School website (http://www.graduate.vcu.edu) and academic regulations in individual school and department publications and on program websites. However, in all cases, the official policies and procedures of the University Graduate Council, as published on the VCU Graduate Bulletin and Graduate School websites, take precedence over individual program policies and guidelines.

Visit the academic regulations section for additional information on academic regulations for graduate students. (http://bulletin.vcu.edu/academic-reggs)

Degree candidacy requirements
A graduate student admitted to a program or concentration requiring a final research project, work of art, thesis or dissertation, must qualify for continuing master's or doctoral status according to the degree candidacy requirements of the student's graduate program. Admission to degree candidacy, if applicable, is a formal statement by the graduate student's faculty regarding the student's academic achievements and the student's readiness to proceed to the final research phase of the degree program.

Graduate students and program directors should refer to the following degree candidacy policy as published in the VCU Graduate Bulletin for complete information and instructions.

Visit the academic regulations section for additional information on degree candidacy requirements. (http://bulletin.vcu.edu/academic-reggs/grad/candidacy)

Graduation requirements
As graduate students approach the end of their academic programs and the final semester of matriculation, they must make formal application to graduate. No degrees will be conferred until the application to graduate has been finalized.

Graduate students and program directors should refer to the following graduation requirements as published in the Graduate Bulletin for a complete list of instructions and a graduation checklist.

Visit the academic regulations section for additional information on graduation requirements. (http://bulletin.vcu.edu/academic-reggs/grad/graduation-info)

Special requirements

- Pharm.D. or bachelor’s degree in a related area

In addition to the general admission requirements of the VCU Graduate School (http://bulletin.vcu.edu/graduate/study/admission-graduate...
study/admission-requirements), applicants must have received a baccalaureate from an accredited institution in a related area demonstrating the ability to perform at the graduate level. Prerequisite and foundation course work may be required, depending upon the applicant's discipline.

**Degree requirements**

In addition to general VCU Graduate School graduation requirements (http://bulletin.vcu.edu/academic-regs/grad/graduation-info), all School of Pharmacy graduate students must fulfill the curricular requirements of the School of Pharmacy core curriculum and the core curriculum required by their respective options. In order to graduate, M.P.S. students must complete a minimum of 30 graduate credit hours of required and elective course work and must pass the project review and defense in each department.

**Curriculum requirements**

</table>

Select a minimum of one credit from the following: 1

- **PCEU/MEDC/PHAR 614** Research Techniques (variable credit)
- **MEDC 526** Research Techniques in Medicinal Chemistry (variable credit)

Select a minimum of one credit from the following: 1

- **PCEU 690** Pharmaceutics Research Seminar (variable credit)
- **MEDC 690** Departmental Research Seminar (variable credit)
- **PHAR 690** Pharmacy Research Seminar (variable credit)
- **PSCI 607 & PSCI 608** Introduction to Pharmaceutical Sciences From Bench to Shelf and Introduction to Pharmaceutical Sciences From Bench to Shelf

In addition to the pharmaceutical sciences core courses, students must fulfill course and other degree requirements in their respective concentrations as outlined below.

**Concentration requirements**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
