Yossera Bouchtia

Program director

The Bachelor of Arts in Cinema is focused on narrative movie production. Consequently, the program is designed to advance conceptual understanding of visual storytelling and to teach and practice the technical methodologies foundational to movie-making.

Cinema majors collaborate on student productions under the supervision of faculty with professional production experience. Each summer session, students and faculty work collectively on a series of films funded by the School of the Arts.

Students who complete the requirements for the below will receive a Bachelor of Arts in Cinema.
