DANCE AND CHOREOGRAPHY, BACHELOR OF FINE ARTS (B.F.A.) WITH A CONCENTRATION IN PERFORMANCE/RICHMOND BALLET

VCU's Department of Dance and Choreography offers a four-year degree concentration within the B.F.A. specifically designed for Richmond Ballet trainees. This unique program bridges trainee experience with the Richmond Ballet professional company and rigorous pre-professional training with a focus in modern/contemporary dance. During the first two years, students receive VCU credit for their work at the Richmond Ballet while taking general education courses, dance history and improvisation at VCU. Students then complete the degree with two years at VCU, taking courses in modern/contemporary dance, ballet, composition, dance science, teaching methods and more. There are many opportunities to perform throughout the four years. This B.F.A. program is designed for disciplined students who are interested in attaining versatility in both ballet and modern/contemporary dance while exploring creative, historical and global perspectives of the field.

A very small number of students in this degree program are offered the opportunity to join Richmond Ballet II after their first two years. Students are encouraged to discuss professional and academic plans with their advisers should this occur.

Student learning outcomes
Upon completing this program, students will know and know how to do the following:

- Students must demonstrate proficiency in improvisation, composition, choreography and related art forms that encourage creativity and an individual point of view.
- Students must demonstrate proficiency in modern dance and a diverse range of other dance techniques. The objective is to maximize students' potential to become versatile dancers of technical excellence.
- Students must demonstrate a global and historical perspective of dance as an art form with an emphasis on contemporary approaches to dance making and performance.
- Students must demonstrate writing and critical-thinking skills.
- Students must demonstrate comprehensive and theoretical understanding of the field.

Special requirements
An audition is required for acceptance into the dance program.
Applicants must follow the admissions guidelines for arts students as described in the "Admission to the university" section of the bulletin.

The two-year trainee program of the Richmond Ballet provides intensive study and opportunities to perform in concert with the Richmond Ballet Company. Within this concentration, Richmond Ballet trainees enroll as full-time VCU dance majors when they enroll in the Richmond Ballet Trainee Program. Students must pass auditions for both programs and meet VCU academic requirements for admission.

Students in the performance/Richmond Ballet concentration must pay tuition for both the VCU and the Richmond Ballet Trainee programs.

Technique proficiency standard
All dance majors in the Richmond Ballet Trainee BFA must complete ballet technique to the level DANC 412 and modern technique to the DANC 302 level (or an equivalent approved by the chair and full-time faculty) to be eligible for graduation.

Senior project
In order to graduate, students must also complete DANC 490, which is a practical presentation in performance. A review committee, composed of full-time faculty members, approves senior projects in multiple stages. Eligibility is based on the student's overall academic record (credits earned, requirements met). Approval in stage one is based on the quality of the student's written proposal; in stage two it is based upon evaluation/review of the student's completed project proposed for presentation.

Enrollment is restricted to majors in the Department of Dance and Choreography or requires permission of the instructor. This course introduces diverse perspectives on sound design for live and video dance and provides an overview of sound as a form of communication and an artistic practice. Instruction will focus on how sound design conveys meaning and how sound interacts with visual experience, including dance, art installations, performance, video and film. Designing great sound scores begins by deeply listening to sounds and environments and thinking about how to expressively create drama and emotion for the audience. This is a project-based course designed to help students complete sound designs for their own work.
