Students will demonstrate competent schematic design, concept development and problem-solving (concept statements, conceptual drawings, space planning). Student work will demonstrate competent design development skills (selection of finishes and materials; furniture selection and plan, plans, elevations, sketches, and study models; luminaires and lighting sources; design justification solutions in relation to the program and concept; appropriate selection and application of decorative architectural elements). Student work will demonstrate competent skills in preparing drawings, schedules and specifications as an integrated system in a single project. Student work should demonstrate an understanding of appropriate selection and application of art and accessories, the ability to custom design interior elements, way-finding methods and graphic identification. Student work must demonstrate understanding that design solutions affect and are impacted by building systems and interior materials. Students must demonstrate understanding of the impact of laws, codes, regulations, standards and practices that protect the health, safety and welfare of the public.

4. **Student work will demonstrate effective communication.** Student work will demonstrate competence in drafting and lettering, both manual and computer-aided techniques; illustrative drawing; and presentation of color, materials and furnishings. Students must express ideas clearly in oral presentations and critiques; communicate clearly in writing of specifications, schedules, and contracts and other business-related documents, such as project programs, concept statements, reports, research papers, resumes and correspondence. Student work must demonstrate the student’s ability to successfully render the design intent using two- and three-dimensional methods (manual and computer-aided).

5. **Students will demonstrate a foundation in business and professional practices.** Students will demonstrate understanding of project management (estimating, budget management, contract administration, information management, conflict resolution, assessment processes including post-occupancy evaluation). Students must demonstrate knowledge of licensing and registration requirements for interior designers and professional design organizations. Students must demonstrate understanding of basic business computer applications (word processing, spreadsheets) and business procedures (marketing, strategic planning).

**Special requirements**

For consideration and entry into the interior design major, students must successfully complete all foundation studio courses and submit a portfolio of their work for review.
