SUPPLY CHAIN MANAGEMENT, BACHELOR OF SCIENCE (B.S.)

The supply chain management program offers a robust foundation for diverse career opportunities covering sourcing, logistics, sustainability, operations, process, quality and inventory management. The curriculum equips students with essential qualitative and quantitative methodologies to enhance supply chain efficiency and responsiveness. Students develop analytical skills to address contemporary challenges in global supply chains and enhance organizational operations. By engaging in hand-on applications and utilizing modern analytics software, students apply their knowledge to make well-informed decisions with complex, real-world data. Our program highlights the importance of cultural competence, ensuring students are prepared for success in diverse global supply chain environments.

Learning goals

Graduates will employ knowledge of supply chain management and effectively utilize analytics tools to provide insight and solutions to complex business issues.

Student learning outcomes

Upon completing this program, students will know and know how to do the following:

- Qualitatively assess the core responsibilities and measures of performance for supply chain functions
- 2. Identify and apply appropriate managerial strategies to supply chain problems
- Quantitatively analyze the risk exposure of organizations within a supply chain and propose solutions to mitigate it
- Evaluate the requisites and available data pertaining to analyticsbased problems
- Determine suitable analytical techniques for problem analysis and deploy those methods to facilitate decision-making
- Employ computational tools and quantitative techniques to improve supply chain performance.

Special requirements

The admission requirements for the School of Business (http://bulletin.vcu.edu/undergraduate/business/undergraduate-information/academic-policies/) detail the deadlines and other requirements for students to be admitted to one of these major programs of study. The following courses must be completed before the student may declare a specific business major. ACCT 203, ACCT 204, BUSN 201 or BUSN 205, BUSN 212 or MATH 200, BUSN 225, ECON 210, ECON 211, UNIV 111, UNIV 112 and UNIV 200.

The School of Business has special academic policies (http://bulletin.vcu.edu/undergraduate/business/undergraduate-information/academic-policies/), including policies on transfer credits, that apply to all undergraduate degrees.

All baccalaureate degree programs in the School of Business require successful completion of the business knowledge exam as administered in BUSN 499.

Students may need to take additional mathematics courses as prerequisites to BUSN 212 or MATH 200. These credits will count as open electives in the degree program.

No more than six credits from the BUSN 16X Digital Literacy courses may be applied to the degree.

INTL 493 may not be counted toward a business degree.

Credit for SPCH 121 or SPCH 321 will substitute for BUSN 225, and no more than three credits of these courses may be applied toward a business degree. Students who earned a minimum grade of B in either ECON 203 or ECON 205 at VCU may substitute that credit for ECON 210.

The pass/fail grading policy may not be used for many course requirements. Students should check with their academic adviser before taking the pass/fail grading option.
