SPECIAL EDUCATION AND TEACHING, BACHELOR OF SCIENCE IN EDUCATION (B.S.ED.)

The purpose of the B.S.Ed. in Special Education and Teaching degree is to prepare students to serve as initially licensed special education teachers in K-12 schools, as well as to serve as educators and leaders in schools and community-based settings. The program will focus on providing students with the tools they need to make a difference in the lives of children, youth and adults with disabilities. Students will gain the knowledge and skills to become licensed special education teachers who work with children with high incidence disabilities, including individuals with learning disabilities, emotional disturbance and mild to moderate intellectual disability. Students will be able to recognize a child’s educational and social problems, to formulate effective and personalized/individualized instruction, and to consult with parents, teachers and administrators to incorporate accommodations and transitions across the child’s educational program. Students also will be prepared to teach reading and language, mathematics, and other core content areas, as well as be able to apply classroom and behavior management and social skills to students with diverse abilities and backgrounds. Graduates will be prepared to work in public and private elementary, middle and high schools across Virginia, with particular focus in urban and high-need areas. Graduates will be capable of working with diverse learners and adapting instructional programs based on the needs of their students and clients. Successful completion of the program will result in licensure in special education/general education curriculum (K-12).

See Admission to undergraduate programs (http://bulletin.vcu.edu/undergraduate/education/admission-baccalaureate/) for admission requirements to this program.

Student learning outcomes

1. **Learner and learning:** Students will understand human development and learning theory appropriate to the age group they will teach and acquire an awareness of the diversity of the school-age population in cultural backgrounds and styles of learning.
2. **Content:** Students will demonstrate knowledge of the subjects they will teach.
3. **Instructional practice:** Students will demonstrate an ability to plan and implement effective teaching and measure student learning in ways that lead to sustained development and learning.
4. **Professional responsibility:** Students will develop an understanding of purposes for education and a defensible philosophical approach toward teaching and demonstrate professional dispositions.

Special requirements

- Students must have received a minimum grade of C in all required education courses (CLED, ECSE, EDUS, SEDP and TEDU).
- Students must have received a minimum grade of C in all prerequisite courses for all required upper-level education courses (CLED, ECSE, EDUS, SEDP and TEDU).
- Required education courses (CLED, ECSE, EDUS, SEDP and TEDU) in which students earn a grade of D or F must be repeated.
- Students must achieve a 2.8 GPA to be admitted to Teacher Preparation and a 3.0 GPA to be admitted to Clinical Internship.

Term Hours: 14

**Spring semester**
have an impact on diverse learners and explore innovative approaches.

activities, videos and class discussions, students will identify factors that

and inclusion. Personal and theoretical constructs of these key concepts
differences. Key concepts include cultural beliefs, values, equity, diversity
status, linguistic, gender, abilities, urban youth and sexual orientation

as a dynamic and reciprocal interconnected unit instead of separate

learn to view the relationship between the U.S. and the rest of the world
diverse cultures and contexts within and outside of the U.S. Students will

multiple opportunities to increase their cultural awareness individually,

and global perspectives. Students enrolled in the course will have
multiple opportunities to increase their cultural awareness individually,
reciprocally and socially. Throughout the course, students will explore
diverse cultures and contexts within and outside of the U.S. Students will

learn to view the relationship between the U.S. and the rest of the world
as a dynamic and reciprocal interconnected unit instead of separate
units. Topical areas centering on the main theme of multicultural
and global perspectives include race, ethnicity, socioeconomic
status, linguistic, gender, abilities, urban youth and sexual orientation
differences. Key concepts include cultural beliefs, values, equity, diversity
and inclusion. Personal and theoretical constructs of these key concepts
are explored. Through lectures, readings, group projects, community
activities, videos and class discussions, students will identify factors that
have an impact on diverse learners and explore innovative approaches
leading to the success of all learners.

The minimum number of credit hours required for this degree is 123.

SEDP 200. Characteristics of Individuals With Disabilities. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course focuses on
characteristics and identification of individuals with learning
disabilities, emotional and behavioral disorders, intellectual disabilities,
developmental delay, the less severe autism spectrum disorders,
traumatic brain injury, deaf-blindness, visual impairment and other
health impairments, and knowledge of characteristics throughout the
lifespan, as well as providing information on effects of educational,
psychosocial and behavioral interventions that serve as adaptations
to the general curriculum. The possibilities of co-morbid or multiple
conditions, coupled with cross-categorical instructional settings, warrant
a class that examines all eligibility categories of students served under
the special education, general curriculum.

SEDP 201. Teaching Individuals With Mild and Moderate Disabilities. 3
Hours.
Semester course; 3 lecture hours. 3 credits. This course provides an
understanding and application of learning principles and methodologies
for instructing, communicating and enhancing student learning that will
reflect culturally responsive curriculum and pedagogy. An introduction
to instructional strategies and organization of activities, including
curriculum, media, materials and physical environment for children
in grades K-12; studies of students with high-incidence disabilities in
inclusive classroom environments are included. Candidates will develop
skills to plan and deliver instruction in a variety of educational settings
such as inclusive classrooms, resource rooms, self-contained classes
and residential programs.

SEDP 202. Preparing Diverse Learners From Multicultural and Global
Perspectives. 3 Hours.
Semester course; 3 lecture hours (delivered in hybrid format). 3
credits. This course is designed to enhance cultural competence of
students through exploration of diversities from multicultural aspects
and global perspectives. Students enrolled in the course will have
multiple opportunities to increase their cultural awareness individually,
reciprocally and socially. Throughout the course, students will explore
diverse cultures and contexts within and outside of the U.S. Students will
learn to view the relationship between the U.S. and the rest of the world
as a dynamic and reciprocal interconnected unit instead of separate
units. Topical areas centering on the main theme of multicultural
and global perspectives include race, ethnicity, socioeconomic
status, linguistic, gender, abilities, urban youth and sexual orientation
differences. Key concepts include cultural beliefs, values, equity, diversity
and inclusion. Personal and theoretical constructs of these key concepts
are explored. Through lectures, readings, group projects, community
activities, videos and class discussions, students will identify factors that
have an impact on diverse learners and explore innovative approaches
leading to the success of all learners.

SEDP 203. Special Education Law. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course provides an
overview of historical and current federal and state litigation and
legislation, including those pertaining to special education and related
services. Throughout this course, students will have various opportunities
to learn federal and state statutes that address the educational rights
of children/students with disabilities and their parents. Students will
gain a deep understanding of the Individuals with Disabilities Education
Improvement Act. Specifically, students will become familiar with
federal statutes and regulations concerning assessment and evaluation
procedures, due process and mediation, discipline, individualized
education program, free appropriate public education, and least
restrictive environment. Additional federal laws that are discussed
include the Rehabilitation Act of 1973: Section 504 and the Americans
with Disabilities Act. Students are also expected to read and discuss
selected issues in Virginia special education law and selected passages
from the state statutes and the relevant administrative and case laws.

SEDP 204. Trends in Special Education. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course provides an
understanding of the historical, philosophical and sociological
foundations of public education in the United States, as well as
standards for Virginia education and teaching professionals and ethical
and accepted professional standards. The course will cover general
knowledge of the foundations of educating students with disabilities,
including a general overview of legislation and case law pertaining
to special education; characteristics of individuals with and without
exceptionalities, including growth and development from birth through
adolescence; medical aspects of disabilities; family systems and
culture; collaboration; integration/inclusion; transition; and classroom
adaptations for educating students with disabilities in the least restrictive
environments.

SEDP 216. Families and Professional Partnerships. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course is designed
to increase the knowledge, skills and dispositions that are important
for collaborating and communicating effectively with families of
young children with special needs. This course will also emphasize
understanding the role and responsibilities of community agencies
and providers, and how understanding the role of members of the
collaborative team can impact families in the education and transition
of their children with disabilities to include education, training, employment,
self-determination and other skills. During this course, students
will explore the dimensions of family-centered services and person-
centered planning, as well as the familial, ecological and cultural
factors affecting young children with disabilities and their caregivers.
Students will learn about theory, general principles and procedures
for fostering collaborative partnerships among families, professionals
and other stakeholders that lead to outcomes of individual and mutual
empowerment.

SEDP 250. Special Education Elementary Supervision. 2 Hours.
Semester course; 1.5 lecture and .5 field experience hours. 2 credits.
Enrollment is restricted to students with a minimum of 30 hours
(sophomore, junior or senior standing). The purpose of this field
experience is to provide teacher candidates with practical experiences
within the classroom. The teacher candidate will be observed and
evaluated based on demonstration of their knowledge and ability to meet
performance standards measured by the Virginia Standards of Learning
in any of the following areas: curriculum and instruction, assessment,
classroom and behavior management, collaboration, professional and
ethical behavior, characteristics, IEP development and implementation,
instruction for reading, writing and mathematics, and transition.
SEDPA 282. Multicultural Perspectives in Education. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course is designed to enhance cultural competence in diverse classrooms and schools. Major considerations include race, ethnicity, socio-economic status, linguistic abilities, and gender and sexual orientation differences. Key concepts include structural, curricular and instructional facets of working successfully in diverse educational settings. Personal and theoretical constructs of race, ethnicity, culture, disability and other related concepts are explored. Through lectures, readings, group projects, class activities, videos and class discussions students will explore the impact of institutional "isms" on both Anglo students and students from culturally and linguistically diverse backgrounds.

SEDPA 311. Secondary Education and Transition Planning. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course explores the literature, research, issues and trends that are relevant to children and youth with high-incidence disabilities (learning disabilities, emotional disabilities and/or mild intellectual disabilities) as they prepare for their transition to life after high school. Focus is on providing candidates with the ability to prepare their students and work with their families to promote successful transitions throughout the educational experience, including post-secondary training, employment and independent living, which address an understanding of long-term planning, transition assessments, career development, life skills, community experiences and resources, self-advocacy and self-determination, guardianship, and legal considerations. The full range of functioning is addressed in the areas of education, employment, social/emotional functioning and development, and personal and daily living issues. The overriding goal of this course is to provide candidates with the wherewithal for critical reflection in their professional practice to help individuals with disabilities develop, implement and achieve self-determined transition goals for their post-school years.

SEDPA 315. Classroom Management and Behavior Support for Students With Disabilities. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course will provide an in-depth analysis of theoretical models, research and strategies for supporting positive behavior of students with disabilities. Emphasis is on developing, implementing and evaluating behavior management programs in special education, including applied behavior analysis, functional assessment, positive behavioral supports and related classroom strategies. This course will help develop a candidate's ideas about examining the behaviors of students with special needs in school settings, including an understanding and application of school crisis management and safety plans, classroom and behavior management techniques, and individualized behavioral interventions. Techniques and approaches taught will promote skills that are consistent with norms, standards and rules of the educational environment and will be culturally diverse and responsive based upon developmental (e.g., students' ages and classroom management), cognitive, behavioral, social and ecological theory and practice. Students will learn to evaluate students' behavior and environments, as well as reflect on their own role in contributing to mitigating behavior problems. Candidates will also learn strategies to prevent and/or intervene in those factors to students' problematic behavior and facilitate their positive behavior.

Semester course; 3 lecture hours. 3 credits. This course is designed to provide pre-service teachers with the opportunity to acquire advanced skills for effective planning, implementing and evaluating behavior strategies and supports. It will also present strategies available for management, communication and discipline at the introductory level. Students will examine a cross section of theories, models and legal and ethical variables relevant to orchestrating learning across school settings where individuals with disabilities are receiving instructional, social, behavioral and transition life-skill services. The use of positive behavioral interventions and functional behavior analysis will be discussed and students will demonstrate appropriate skills using these strategies. Students will also learn the process used to develop and monitor behavior support plans.

SEDPA 330. Survey of Special Education. 3 Hours.
Semester course; 3 lecture hours. 3 credits. Presents an overview of the historical basis and regulatory requirements related to special education, including the individual education program as a legal document and the rights and responsibilities of parents, teachers and schools. The characteristics of learners with disabilities and their educational and medical implications are also examined, as well as the cultural, familial and ethical issues involved.

SEDPA 350. Special Education Middle School Supervision. 2 Hours.
Semester course; 1.5 lecture and .5 field experience hours. 2 credits. Prerequisite: SEDPA 250. Enrollment is restricted to students with a minimum of 60 hours (junior or senior standing). The purpose of this field experience is to provide teacher candidates with practical experiences within the classroom. The teacher candidate will be observed and evaluated based on demonstration of their knowledge and ability to meet performance standards measured by the Virginia Standards of Learning in any of the following areas: curriculum and instruction, assessment, classroom and behavior management, collaboration, professional and ethical behavior, characteristics, IEP development and implementation, instruction for reading, writing and mathematics, and transition.

SEDPA 378. Teaching Math to Students With Disabilities. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course is designed for prospective teachers in the special education program and addresses mathematics pedagogy for students with disabilities. The course will focus on selecting appropriate mathematics curricula and instructional methodologies; learning how to assess students and develop appropriate goals, including Virginia Standards of Learning across grades K-12; understanding of application of mathematics service delivery, curriculum and instruction of students with disabilities, including alternate ways to teach and adapt math content to students accessing the general curriculum across K-12 environments; and planning and integrating appropriate and evidence-based math strategies into students' programming based on assessment data.

SEDPA 379. Assessment Practices in Autism and Developmental Disabilities. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course creates a structure for understanding and designing effective social interactions and communication strategies, social-emotional development, and behavior interventions for children with autism spectrum disorder and other developmental disabilities. The course focuses on the application of empirically validated social interaction/communication and behavioral interventions that are consistent with principles of ABA in designing the interventions.
SEDPO. Teaching Reading to Students With Disabilities. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course provides
effectively validated instructional procedures to address reading for
students with disabilities. The focus will be on understanding state and
national reading curriculum, pedagogy and assessments of students’
reading skills; planning and implementing appropriate instructional
procedures; and monitoring students’ progress. Development of age-
appropriate language acquisition, reading and writing is included.
Curriculum development that includes scope and sequence, lesson plans,
instructional methods based on access to the general curriculum and
Virginia standards, including alternate ways to teach reading and writing
content, is applied.

SEDPO. IEP and Due Process in Special Education. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course is designed to
provide educational personnel with knowledge of the eligibility process
and legal regulatory requirements for IEP development. Participants will
apply knowledge of content standards, assessment and evaluations
throughout the K-12 grades to construct IEPs; make decisions about
student progress, instruction, program, accommodations, placement,
teaching methods and transition; and complete hands-on IEP writing
experiences that will address academic and functional needs of students
with disabilities. Participants will engage in debate regarding due process
and other regulatory requirements and measures, including the least
restrictive setting for students with special needs, timelines and team
member responsibilities.

SEDPO. Assessment in Diverse Settings. 3 Hours.
Semester course; 3 lecture hours. 3 credits. Prerequisite: TEDU 413 or
SEDPO 378. Enrollment is restricted to students admitted to a B.S. in
Education program. This course explores all aspects of assessment that
a teacher encounters in preK-12 educational settings. The course will
cover current assessment theories, approaches and instruments used
to measure the performance of the children and students representing
the diverse learners in today’s classrooms – including students with
and without disabilities, English language learners and students
representing a range of cultural backgrounds. Assessments at all stages
of instruction (before, during and after), including formal and informal
assessments and their applications in an inclusive educational setting,
will be addressed. Particular attention is paid to the ways in which
teachers can gather and use assessments to make data-informed
decisions for effective instruction and intervention leading to optimal
child development and student achievement. Specifically, the course
will explore the relationships among content standards, instruction and
assessment as well as ways to use a variety of assessments to monitor
student progress. The course emphasizes making valid inferences from
assessments in a variety of formats; understanding the legal and policy
context of assessment; and the implications for appropriate grading
practices and decision-making. Course content and assignments will
promote critical-thinking and problem-solving skills. Crosslisted as:
TEDU 410.

SEDPO. Exceptionality and Technology: Augmentative and Alternative
Communication and Assistive Technology. 3 Hours.
Semester course; 3 lecture hours. 3 credits. This course will provide
students with foundational ideas and concepts regarding the selection
and use of assistive technology and augmentative and alternative
communication for students with disabilities. Students will recognize
and plan for the uses of technology that will aid the student in their education,
work and independent living. This course emphasizes the selection and
use of AT and AAC in general and special education settings (K-12) for
students across the continuum of disability.

SEDPO. Methods in Teaching Science and Social Studies for Students
With Disabilities. 3 Hours.
Semester course; 3 lecture hours. 3 credits. Enrollment is restricted to
juniors or seniors with a minimum of 60 credits. This course combines a
process approach of science programs drawn from biological, earth
and physical sciences with the study of social studies curriculum,
materials and selected instructional strategies for teaching students
with disabilities. An understanding of vocabulary development and
comprehension skills in science and history will cultivate strategies
for students to ask effective questions, summarize and retell both
verbally and in writing strategies to impart an understanding of science
and history standards of learning. The first half of this course will be
dedicated to encouraging effective science instruction for diverse
students, with the second half dedicated to encouraging effective social
studies/science instruction.

SEDPO. Collaborative Practices and Co-teaching in Inclusive Schools.
3 Hours.
Semester course; 3 lecture hours. 3 credits. Enrollment is restricted to
juniors or seniors with a minimum of 60 credits. This course is
designed to help prospective general and special educators develop
an understanding of collaborative and communication strategies,
models and techniques to meet the educational needs of children with
disabilities. Skills in consultation, case management and collaboration,
including coordination of service delivery with related services
providers, general educators, administrators, parents, students and
other professions (e.g., paraprofessionals, community agencies) in
collaborative work environments will be understood. Class activities,
discussions and projects will concentrate on appropriately meeting
the needs of children with disabilities within the context of the general
education setting. Students will also study and practice a variety of
instructional and organizational techniques for adapting the general
classroom environments in order to address the needs of children with
disabilities in the general education classroom.

SEDPO. Building a Community of Learners: Classroom Management. 3
Hours.
Semester course; 3 lecture hours. 3 credits. Prerequisite: EDUS 301,
PSYC 301 or PSYC 304 with a minimum grade of C. The course is
designed to encompass pre-K through grade 12 classroom management
theory and application, motivation theory and application, diversity, socio-
emotional development, trauma-informed care, and restorative justice
for regular education and special education students. Crosslisted as:
TEDU 410.

SEDPO. Action Research in Education and Special Education:
Capstone Project. 3 Hours.
Semester course; 3 lecture hours. 3 credits. Enrollment is restricted to
seniors with a minimum of 90 credits. This course will prepare students
to be reflective practitioners by connecting theory, research and practice
through the exploration of action research. The course will consist of
three components that promote students’ capacity for putting research
into action related to their direct work with children and youth with
disabilities and their families. Students will first be guided to investigate a
research-based instruction/intervention strategy or approach to teaching
children and youth with disabilities or developmental delays through a
structured literature review. Students will then develop a research plan
be implemented during one of their externships based on the results of
the literature review. Finally, students will present their literature review
summary and research plan via an online and/or face-to-face poster
presentation format. Ongoing, interactive reflections from students are
essential components throughout the course.
SEDP 420. Special Education Leadership for Inclusive Schools. 3 Hours.
Semester course; 3 lecture hours. 3 credits. Enrollment is restricted to students with a minimum of 90 credits (senior standing). This course will introduce participants to issues involved in leadership for creating inclusive environments in schools. These systems are aimed to fully include students with disabilities and ensure positive outcomes for students both academically and in functional skills needed for participation in the education environment, community life, employment and for post-secondary success. Students will be challenged with assessing their own leadership styles, professional and ethical standards, personal integrity, and how beliefs and values shape actions. Students will also explore strategies to promote the importance of inclusive education as well examine Virginia standards and CEC standards for inclusive schools. Students will have a chance to see the impact of teacher leadership on special education and understand how to promote self-advocacy in students.

SEDP 450. Special Education High School Supervision. 2 Hours.
Semester course; 1.5 lecture and .5 field experience hours. 2 credits. Prerequisite: SEDP 350. Enrollment is restricted to students with a minimum of 60 hours (junior or senior standing). The purpose of this field experience is to provide teacher candidates with practical experiences within the classroom. The teacher candidate will be observed and evaluated based on demonstration of their knowledge and ability to meet performance standards measured by the Virginia Standards of Learning in any of the following areas: curriculum and instruction, assessment, classroom and behavior management, collaboration, professional and ethical behavior, characteristics, IEP development and implementation, instruction for reading, writing and mathematics, and transition.

SEDP 460. Specialized Reading and Writing Interventions for Students With Disabilities. 3 Hours.
Semester course; 3 lecture hours. 3 credits. Prerequisite: SEDP 380. This course will cover the complex nature of language and literacy to include assessment strategies and instructional procedures, curriculum and instruction alternatives, and program planning for the literacy development of students with reading and/or writing disabilities. Skills in the area of phonemic awareness, sound and symbol relationships, explicit phonics instruction, syllables, phonemes, morphemes, decoding skills, word attack skills, syntax and semantics will be developed. Students will learn teaching skills, remediating deficits, utilizing research/evidence-based interventions, providing explicit reading and writing instruction, implementing and evaluating individual and group management techniques and individual interventions that teach and maintain emotional, behavioral and social skills across ages and developmental levels. The course will focus on how, as a teacher, one participates in tiered support systems and facilitates/provides appropriately focused and intensive literacy instruction.

SEDP 461. Specialized Math Interventions for Students With High Incidence Disabilities. 3 Hours.
Semester course; 3 lecture hours. 3 credits. Prerequisite: SEDP 378. This course focuses on interventions for students with high incidence disabilities who may need additional instruction beyond their core mathematics class. The course is designed to increase student understanding and achievement by increasing time and intensity on grade-level standards. Strategies used in the intervention course should be different than strategies used in the core math course and are inclusive of all student populations, including general education, special education or English language learners. When done appropriately, this course will both build student confidence and reduce the likelihood of repeating their core mathematics course. In addition, students will explore research and evidence-based interventions. The class will be designed around the seven principles of effective intervention for students with mathematics disabilities.

SEDP 492. Independent Study. 1-3 Hours.
Semester course; 1-3 lecture hours. 1-3 credits. Opportunities are provided for supervised independent study in selected areas. All work offered on an individual basis with the approval of instructor and department chair.

SEDP 495. Universal Design for Learning and Transition. 3 Hours.
Semester course; 3 lecture hours. 3 credits. The purpose of this course is to provide students with evidence of each of the components of universal design for learning within access to the general academic curriculum – multiple means of representation, expression and engagement. Students will engage in an understanding of theories of learning and development, including cognitive and learning processes, social-emotional development, practices for culturally and linguistically diverse learnings, such as English learners, gifted and talented students and students with disabilities, in individual and universal contexts. Additional focus is placed on UDL components linked to effective transition planning embedded within academic instruction targeting successful transitions to postsecondary educational settings. Emphasis is placed on beginning research on the use of this approach and its promising practice for addressing academic and transition goals as well as increasing student motivation and self-determination.

SEDP 499. Student Teaching. 6 Hours.
Semester course; 6 field experience hours. 6 credits. The major goal of this course is to provide student teachers a challenging, relevant and rewarding experience, which will allow them to acquire professional competence. Student teachers will learn to respect and work effectively with students of varying backgrounds and disabilities; assume the various responsibilities of the classroom teacher; plan instruction and learning experiences that recognize the individual needs and differences of students; organize and manage the classroom environment to maximize learning; and practice being a reflective teacher.
