BIOMEDICAL ENGINEERING, MINOR IN

The minor in biomedical engineering may be completed by any student with an interest in the subject. The minor will aid in preparing students for work in related medical fields or for graduate study in biomedical engineering.

Total Hours 18

1

Students may not count EGRB 301, EGRB 401 or EGRB 402 toward the minor.

All courses required for the minor must be completed with a minimum grade of C.

Up to nine credits of comparable course work may be substituted with prior approval from the undergraduate coordinator. Pre-approved courses that will substitute within the minor are as follows:

- EGRB 102 may be satisfied by introduction to engineering courses from other engineering majors.
- EGRB 209 may be satisfied by a physiology course from other VCU departments.
- EGRB 203 may be satisfied by EGMN 102 and EGMN 202.
- EGRB 303 may be satisfied by CLSE 301 or EGMN 301.
- EGRE 206 may satisfy four credits toward the minor.
