

UNDERGRADUATE-ONLY REGULATIONS

Regulations presented in this section apply in particular to undergraduate students. Use the navigation to the left to see additional regulations that apply to all students or specifically to graduate students.

Students are responsible for knowing and fulfilling all general and specific degree requirements as described in this section.

It is the responsibility of all undergraduate students to be familiar with the Undergraduate Bulletin of record (the bulletin in effect at the time of official admission), as well as the academic regulations in individual school and department publications and on program websites; however, in all cases, the academic regulations and general degree requirements, as published on this Undergraduate Bulletin website, take precedence over individual program policies and guidelines.
