BIOLOGY LAB (BIOZ)

BIOZ 101. Biological Concepts Laboratory. 1 Hour.
Semester course; 2 laboratory hours. 1 credit. Pre- or corequisite:
BIOL 101, 151 or 152. Laboratory exercise correlated with BIOL 101. Not
applicable for credit toward the B.S. in Biology.

BIOZ 151. Introduction to Biological Science Laboratory I. 1 Hour.
Semester course; 3 laboratory hours. 1 credit. Prerequisite: MATH 139,
MATH 141, MATH 151, MATH 200, MATH 201 or a satisfactory score
on the math placement exam; and CHEM 100 with a minimum grade of
B, CHEM 101 with a minimum grade of C or a satisfactory score on the
chemistry placement exam. Pre- or corequisite: BIOL 151. Laboratory
investigation of cellular metabolism, genetics and molecular biology,
with an emphasis on formation and testing of hypotheses. Laboratory
exercises will elaborate themes discussed in BIOL 151.

BIOZ 152. Introduction to Biological Science Laboratory II. 1 Hour.
Semester course; 3 laboratory hours. 1 credit. Prerequisites: BIOL 151,
BIOZ 151 and CHEM 101, each with a minimum grade of C. Pre- or
corequisite: BIOL 152. Laboratory investigation of evolutionary concepts,
evolution of organisms, biological diversity and ecology, with an
emphasis on formation and testing of hypotheses. Laboratory exercises
will elaborate themes discussed in BIOL 152.

BIOZ 201. Human Biology Laboratory. 1 Hour.
Semester course; 2 laboratory hours. 1 credit. Pre- or corequisite:
BIOZ 201. Laboratory exercises correlated with BIOZ 201 Human Biology.
Exercises emphasize the structure, function and disorders of human
body systems, principles of human genetics and inheritance, and human
evolution and ecology. Not applicable for credit toward the B.S. in Biology.

BIOZ 209. Medical Microbiology Laboratory. 1 Hour.
Semester course; 2 laboratory hours. 1 credit. Pre- or corequisite:
BIOZ 209. Techniques to culture, isolate and identify microbes with
related topics such as water coliform tests, and antibiotics and
disinfectant sensitivity testing. Not applicable for credit toward the B.S. in
Biology.

BIOZ 303. Microbiology Laboratory. 2 Hours.
Semester course; 1 recitation and 3 laboratory hours. 2 credits. Pre- or
corequisite: BIOZ 303. Laboratory application of techniques and concepts
in microbiology. Emphasis is placed on techniques to isolate, culture and
identify bacteria; genetics and molecular biology of bacteria; safety and
aseptic protocols; assays for antibiotic and disinfectant susceptibility.

BIOZ 307. Aquatic Ecology Laboratory. 1 Hour.
Semester course; 3 laboratory hours. 1 credit. Prerequisites: BIOZ 317,
CHEM 102 and CHEZ 102, with minimum grades of C. Pre- or corequisite:
BIOZ 307. Laboratory and field studies of the biota of aquatic habitats
and their relationship with the environment.

BIOZ 310. Laboratory in Genetics. 2 Hours.
Semester course; 1 lecture and 3 laboratory hours. 2 credits.
Prerequisites: UNIV 200 or HONR 200; and BIOZ 152 and BIOZ 152,
each with a minimum grade of C. Pre- or corequisite: BIOZ 310. Demonstrates
the laws and molecular basis of heredity through exercises and
experiments that use a variety of organisms.

BIOZ 312. Vertebrate Zoology Laboratory. 1 Hour.
Semester course; 3 laboratory hours. 1 credit. Prerequisites: BIOZ 310,
BIOZ 151 and 152, with minimum grades of C. Pre- or corequisite:
BIOZ 312. A field and laboratory survey of the vertebrate animals, with
emphasis on identification and natural history.

BIOZ 313. Vertebrate Natural History Laboratory. 1 Hour.
Semester course; 3 laboratory hours. 1 credit. Prerequisites: BIOL 310 and
BIOZ 151 and 152, with minimum grades of C. Prerequisites: BIOL 313. Laboratory exercises focusing on the natural history of
vertebrates, with emphasis on the species native to Virginia.

BIOZ 317. Ecology Laboratory. 2 Hours.
Semester course; 4 laboratory hours. 2 credits. Prerequisites: BIOL 310
and BIOZ 151 and 152, and UNIV 200 or HONR 200; all with minimum
grades of C. Pre- or corequisite: BIOZ 317. A field-oriented course that
provides experience in ecological research, including experimental
design, instrumentation, data collection and data analysis.

BIOZ 321. Plant Development Laboratory. 2 Hours.
Semester course; 4 laboratory hours. 2 credits. Pre- or corequisite:
BIOZ 321. An experimental approach applied to a phylogenetic survey
of developmental model systems. Observational and experimental protocols
will be used to collect data and gather information. Problem-solving skills
will be utilized to analyze and present experimental results.

BIOZ 324. Medicinal Botany Laboratory. 1 Hour.
Semester course; 3 laboratory hours. 1 credit. Prerequisites: BIOL 310 and
BIOZ 151; BIOZ 152 and BIOZ 152, and BIOZ 300, all with a minimum
grade of C. Pre- or corequisite: BIOZ 324. Introduces basic plant biology
concepts, plant diversity and systematics, and various medicinal plant
species, compounds and properties.

BIOZ 341. Human Evolution Lab. 1 Hour.
Semester course; 2 laboratory hours. 1 credit. Corequisite: BIOZ 341/
ANTH 301. Laboratory exercises correlated with BIOZ 341/ANTH 301.
Exercises emphasize comparative primate and fossil anatomy,
morphology and behavior, as well as practice in recognizing and applying
evolutionary principles in human evolution. Crosslisted as: ANTZ 301.

BIOZ 367. Explorations in Cellular Organization. 3 Hours.
Semester course; 2 recitation hours and 3 laboratory hours. 3 credits.
Prerequisites: BIOZ 307. An experimental approach applied to an
investigation into cell biology and the relationship between structure and
function in cell biology. This course-based research experience provides a theoretical
and practical overview of the design and execution of experimental
workflows in biology, as well as generation and testing of hypotheses.
During lab sessions, students will conduct a series of progressive
experiments to explore an unanswered question related to eukaryotic cell
organization, analyze and interpret data, and reflect on the meaning of
their discoveries. Recitation will cover theoretical aspects of the research
question and experimental design, as well as relevant tools, techniques
and literature needed for lab sessions.

BIOZ 391. Topics in Biology Laboratory. 1-4 Hours.
Semester course; 1-4 laboratory hours. 1-2 credits. Prerequisite: BIOZ 300,
BIOZ 310, BIOZ 317 or BIOZ 318, with a minimum grade of C. Laboratory
investigations in a selected topic of biology. See the Schedule of Classes
for specific topics to be offered each semester and prerequisites.
BIOZ 395. Directed Study. 1-2 Hours.
Semester course; 1-2 independent study hours. 1-2 credits. Prerequisites: BIOZ 151 and BIOZ 152 with minimum grades of C, permission of the Department of Biology and research mentor. A maximum of two credits may be earned between BIOZ 395 and BIOZ 395; maximum total of six credits for all research and internship courses (BIOZ 395, BIOL 451, BIOZ 453, BIOZ 492, BIOL 493, BIOL 495 and/or BIOZ 395) may be applied to the the 40 credits of biology required for the major. Additional credits from these courses may be applied to upper-level and open elective credits toward the degree. A minimum of two credits is required for the course to count as a laboratory experience. Mentors are not limited to faculty members within the Department of Biology, but the context of the research study must be applicable to the biological sciences as determined by the department. Studies should include directed readings, directed experimentation or advanced guided inquiry – all under the direct supervision of a faculty member. A minimum of three hours of supervised activity per week per credit hour is required. Graded as pass/fail.

BIOZ 399. Experiential and Applied Topics: _____. 4 Hours.
Semester course; 0-4 lecture hours. 0-4 credits. Prerequisites: BIOZ 151 and BIOZ 152 with minimum grades of C. Enrollment requires permission of the Department of Biology. Completion of an experiential learning activity or project as approved by the Department of Biology. Experiences vary by section; may include study abroad, study away, course-based undergraduate research, funding-dependent opportunities or other transient course offerings. Provides the student with an opportunity to engage in meaningful hands-on research, scholarship or creative work directly relevant to realizing their personal and professional goals. See the Schedule of Classes for specific topics to be offered each semester and prerequisites.

BIOZ 401. Applied and Environmental Microbiology Laboratory. 2 Hours.
Semester course; 4 laboratory hours. 2 credits. Prerequisite: BIOL 303, BIOZ 401 or permission of instructor. Offers students the opportunity to gain skills and experience necessary to perform a variety of microbiology analyses including both cultivation-based approaches and cultivation-independent methods. Students will apply these techniques and concepts to conduct experiments in soil and aquatic ecology, drinking water quality, wastewater treatment, food production and other environmental applications.

BIOZ 405. Gross Anatomy Laboratory. 2 Hours.
Semester course; 1 recitation and 3 lab hours. 2 credits. Prerequisite: BIOL 205 or BIOL 402 with a minimum grade of B. Enrollment requires permission of the instructor. Lab-based advanced human anatomy course utilizing regional-based cadaver dissection to focus on integrative functions of anatomical structures. Anatomical anomalies, clinical application and relevant advances are applied in the context of exploratory learning and emergent topics. Enrollment is intended for pre-health and biology majors.

BIOZ 416. Ornithology Laboratory. 2 Hours.
Semester course; 4 laboratory hours. 2 credits. Prerequisite: BIOL 317 with a minimum grade of C. Pre- or corequisite: BIOL 416. A field-oriented course that develops basic skills in bird identification by sight and sound for a variety of regional taxa with emphasis on avian anatomy and adaptations for flight. Students conduct an independent or small-group research project on a question of their choice relating to avian ecology or behavior, including experimental design, data collection and analysis, and a final project presentation.

BIOZ 418. Integrative Physiology Laboratory. 3 Hours.
Semester course; 2 recitation and 3 laboratory hours. 3 credits. Prerequisites: BIOL 151 and BIOZ 151; BIOL 152 and BIOZ 152; BIOL 300 and BIOL 317; or equivalents, all with minimum grades of C. A comparative laboratory investigation of physiological responses across plant and animal taxa, with application to changing environmental conditions and ecological interactions. Topics include metabolism, water balance, gas exchange, resource allocation and chemical signaling.

BIOZ 438. Forensic Molecular Biology Laboratory. 2 Hours.
Semester course; 4 laboratory hours. 2 credits. Pre- or corequisite: BIOL/FRSC 438. Provides comprehensive coverage of the various types of DNA testing currently used in forensic science laboratories. Students will have hands-on experience with the analytical equipment employed in forensic science laboratories and the techniques for human identification in forensic casework. Students will also explore and practice both scientific writing and writing of DNA case reports. Crosslisted as: FRSZ 438.

BIOZ 476. Molecular Capstone Laboratory. 2 Hours.
Semester course; 1 lecture and 3 laboratory hours. 2 credits. Prerequisites: BIOL 300 and BIOL 310, each with a minimum grade of C; and 90 credit hours of undergraduate course work. Application of basic methods used in cellular and molecular biology to the investigation of topics of current biological interest. Emphasis on experimental design, data collection and analysis, communication skills, critical thinking, and ethical and social responsibility.

BIOZ 491. Topics in Biology Laboratory. 1-4 Hours.
Semester course; variable hours. Variable credit. Prerequisites: BIOL 300 with a minimum grade of C. Laboratory investigations in a selected topic of biology. See the Schedule of Classes for specific topics to be offered each semester and prerequisites.

BIOZ 493. Biology Internship Laboratory. 4 Hours.
Semester course; 0-4 field experience hours. 0-4 credits (one credit per 50 hours of supervised work experience). May be repeated for credit. Prerequisites: BIOL 151, BIOZ 151, BIOL 152 and BIOZ 152 each with minimum grade of C. Enrollment requires permission of the chair of the Department of Biology and the institution where the internship will be performed. Students may take a maximum of four credits per semester; maximum total of six credits for all research and internship courses (BIOZ 395, BIOL 451, BIOZ 453, BIOZ 492, BIOL 493, BIOL 495, BIOZ 395 and/or BIOZ 493) may be applied to the 40 credits of biology required for the major. Additional credits from these courses may be applied to upper-level and open elective credits toward the degree. BIOZ 493 taken for 0 credit does not qualify for BIOL 477 capstone experience. Internship is designed to provide laboratory, field or work experience in a professional biology setting. To justify registration for this BIOZ laboratory experience credit, the internship must involve hands-on data collection and analysis as approved by the department. In addition to an internship proposal and professional practices/reflection assignments, a final report/reflection must be submitted during the course of the internship.
