ENDODONTICS (ENDO)

ENDO 522. Introduction: Specialty of Endodontics. 2 Hours.
Semester course; 96 laboratory hours. 2 credits. Restricted to first-year
students. Utilizes laboratory exercises to review basic concepts and introduce
the more complex technical procedures required to practice the
clinical specialty of endodontics.

ENDO 530. Advanced Oral Pathology. 1 Hour.
Semester course; 13 seminar hours. 1 credit. Provides through a series of
seminars, an in-depth knowledge of those specific areas of oral pathology
that apply to endodontics.

ENDO 532. Management of Medical Emergencies in the Dental Office. 1 Hour.
Semester course; 20 seminar hours. 1 credit. Provides through a series of
seminars, an in-depth level of knowledge in the management of medical
emergencies in the dental office.

ENDO 560. Endodontic Therapy Lectures. 3.5 Hours.
Semester course; 58 lecture hours. 3.5 credits. Restricted to first-year
students. Presents a series of lectures on clinical endodontic topics in
order to familiarize the students with clinical endodontic procedures
either in conjunction with or prior to the "Endodontic Topic Literature
Reviews" on these specific clinical topics.

ENDO 622. Principles of Endodontics. 1 Hour.
Semester course; 1 lecture hour. 1 credit. Covers the basic principles of
endodontics in preparation for clinical endodontics.

ENDO 623. Principles of Endodontics Lab. 1.5 Hour.
Semester course; 4 laboratory hours. 1.5 credits. This lab course teaches
the basic technical skills of endodontics in preparation for clinical
endodontics.

ENDO 650. Endodontic Topic Literature Review. 3.5 Hours.
Semester course; 58 seminar hours. 3.5 credits. May be repeated for
credit. Must be taken every semester of the program. Reviews topic
literature pertaining to the scientific basis for endodontic procedures and
the materials and techniques utilized in the clinical practice of
endodontics. Discusses content of the reviewed literature and critically
evaluates by means of abstracts and study questions.

ENDO 652. Endodontic Clinical Seminars. 1.5 Hour.
Semester course; 28 seminar hours. 1.5 credits. May be repeated for
credit. Must be taken every semester of the program. Requires students
to present a seminar once each month in which difficult diagnostic
cases, patient management problems and complex treatment cases are
critiqued and treatment options discussed.

ENDO 654. Endodontic Management of the Medically Compromised
Patient. 1 Hour.
Semester course; 14 seminar hours. 1 credit. Must be taken for two
consecutive semesters. Provides students, through a seminar series,
with an in-depth level of knowledge in the endodontic management of
the medically compromised patient.

ENDO 656. Endodontic Current Literature Review. 1 Hour.
Semester course; 18 seminar hours. 1 credit. Must be taken every
semester of the program. Provides a review of current journal literature
that pertains to the scientific basis for endodontic procedures,
materials and techniques currently being used in the clinical practice
of endodontics. Discusses and critically evaluates the content of the
reviewed literature. Requires written abstracts of all reviewed articles.

ENDO 680. Clinical Endodontics. 1-12 Hours.
Semester course; 3-36 clinic hours. 1-12 credits. May be repeated for
credit. Prerequisite: ENDO 522. Enrollment is restricted to students in
the M.S.D. program. This course provides clinical training in diagnosis,
treatment and outcome assessment for all aspects of endodontics with
an emphasis on non-surgical, retreatment and surgical endodontics. Must
be taken both fall and spring of the first and second years of the program
for a total of four credits. May be taken without credit in additional
semesters as needed to complete clinical training.

ENDO 700. Senior Selective in Advanced Clinical Endodontics. 0.5 Hours.
Semester course; 0.5 clinic hours. 0.5 credits. Clinic time may be
weekly, in block rotation or variable schedule. Students must enroll in
this course for two consecutive semesters. The course is designed to
enhance the student's clinical experience in the field of endodontics, to
include patient management, treatment planning, endodontic treatment
modalities, consultation with other health care professionals and referral
to appropriate dental specialists. Emphasis is placed on the management
of common and advanced clinical endodontic problems that may be
encountered in the general practice of dentistry. Guidance from faculty
will encourage the student to synthesize and integrate techniques taught
in previous endodontic courses and labs into a logical and systematic
approach to the delivery of quality endodontic care to the patients.
Graded as pass/Fail.

ENDO 731. Endodontic Therapy. 1 Hour.
Semester course; 1 lecture contact hour. 1 credit. An application course
designed for the student to gain experience and demonstrate proficiency
in the application of clinical endodontic knowledge to the diagnosis and
management of complex clinical endodontic problems. Emphasis is
placed on differential diagnosis and management of clinical endodontic
problems. This course builds on the principles of diagnosis and treatment
disease of the pulp and periradicular tissues and injuries of the dental
pulp. This course continues to place emphasis on the prevention of
disease and maintenance of the normal pulpodentin complex.

ENDO 739. Clinical Endodontics III. 1.5 Hour.
Yearlong clinical course. 2 clinic hours. 1.5 credits. Designed to develop
clinical skills and provide experience in the diagnosis, treatment planning,
treatment, prognosis, follow-up care and clinical patient management
in cases involving the pulp and periradicular tissues. Emphasis is
placed on the management of common clinical problems that may be
encountered in the general practice of dentistry. This course emphasizes
and elaborates on the rationale and treatment techniques presented in
the D-2 didactic and laboratory course. Students receive CO grading in
the fall and a letter grade and earned credit in the spring.

ENDO 749. Clinical Endodontics IV. 1.5 Hour.
Yearlong course; 2 clinic hours. 1.5 credits. Clinic time may be weekly,
in block rotation or variable schedule. This course is designed to
enhance the student's clinical experience in the field of endodontics, to
include patient management, treatment planning, endodontic treatment
modalities, consultation with other health care professionals and referral
to appropriate dental specialists. Emphasis is placed on the management
of common clinical endodontic problems that may be encountered in
the general practice of dentistry. The course will run the fall and spring
semester of the dental student's fourth year. Guidance from faculty will
encourage the student to synthesize and integrate techniques taught
in previous endodontic courses and labs into a logical and systematic
approach to the delivery of quality endodontic care to the patients.
Students receive CO grading in the fall and a letter grade and earned credit in the spring.
