The goal of the Global Student Success Program, a partnership with global education provider Navitas, is to broaden the global experience for our students by focusing on the recruitment of talented international students.

An international pathway program, GSSP eases the transition to a U.S. university environment and prepares pathway students for future academic success at VCU.

Among the services that the program provides for international students are academic content, study skills development and high levels of social and academic support.

Students who successfully complete the program will then be eligible to continue their undergraduate or graduate studies at VCU.
