COMMUNICATION ARTS, BACHELOR OF FINE ARTS (B.F.A.) WITH A CONCENTRATION IN VISUAL EFFECTS

The B.F.A. in Communication Arts with a concentration in visual effects is designed for students seeking a specialization in the artistic, technical and narrative production of digital visual effects for live-action footage.

The communication arts courses for the concentration mirror those for the non-concentration B.F.A., with additional requirements focused on 2D and 3D software, digital filming, compositing, motion-capture and applicable post-production workflows. The approved cinema course will focus on the mechanics of screenwriting to serve as a foundation for interpreting narrative storytelling into a visual effects storyboard.

The 18 credits required in the concentration will combine art and technology to develop a broad understanding of digital visual effects. A student who intends to establish a professional career in post-production and visual effects will benefit from this concentration.
