

DEPARTMENT OF INFORMATION SYSTEMS

J. Paul Brooks, Ph.D.

Professor and chair

business.vcu.edu/academics/information-systems (<https://business.vcu.edu/academics/information-systems/>)

The Department of Information Systems provides an innovative, high quality curriculum that is recognized nationally and internationally and maintains the ability to rapidly respond to the dynamic, changing needs of the academic discipline, industry and community.

The department offers degree programs at both the undergraduate and graduate levels. Additionally, courses in information systems are offered to meet the needs of students in other curricula offered by the university as well as those who are seeking to enhance their knowledge of information systems.

Departmental faculty members offer expertise in information technology and have wide-ranging research and teaching interests. The department has an industry advisory board and provides students with opportunities to work on real-world projects with external clients.

Students who complete the requirements for this degree will receive a Bachelor of Science in Information Systems.

- Information Systems, Bachelor of Science (B.S.) (<http://bulletin.vcu.edu/undergraduate/business/information-systems/information-systems-bs/>)
- Information Systems, Certificate in (Post-baccalaureate undergraduate certificate) (<http://bulletin.vcu.edu/undergraduate/business/information-systems/information-systems-certificate/>)
