

SALES, MINOR IN

The sales minor requires 18 credits and empowers students from marketing or non-marketing majors to develop the skills necessary for success in personal selling, sales management or any career in which one may need to persuade or influence people, including industry, nonprofits and government organizations. Students gain insights into effectively communicating the value of a product, service or idea; building mutually beneficial professional relationships; creating win-win outcomes; and interacting confidently with others face-to-face. Many executives and organizational leaders started their careers in sales and advanced through effective use of sales skills.
