

INTERDISCIPLINARY CAREER READINESS SKILLS, MINOR IN

The minor consists of 18 credit hours of course work, at least nine of which must be at the upper-level. An overall GPA of 2.0 in all courses counted toward the minor is required. No course may be used to fulfill both a minor requirement and a university general education requirement.

At least 50 percent of the content of all courses approved for inclusion within the ICS minor will address the relevant NACE competency or competencies. Approved courses will include significant assignments that will require students to develop or demonstrate the appropriate competency or competencies.

In general, a student must complete three credits in each category identified below, with the exception of the professionalism/career management category, selected from a list of approved courses. Courses should be selected in consultation with the minor adviser, who is a member of the University College Interdisciplinary Studies advising team. To complete the requirements of the professionalism/career management category, a student must successfully complete IDST 450 and two additional credits. In some of the minor categories, a student may substitute an internship, co-op, undergraduate research, study abroad or other REAL experience (Level III-IV) for the required three credits, or the experience itself may be assigned 0 credits (e.g., COOP 398). In such a case, the student must complete three additional credits from the remaining categories. Students should discuss such substitutions with the minor adviser prior to enrolling in the substitute course.

Course	Title	Hours
ICS area		
	Critical thinking/problem solving	3
	Digital technology	3
	Global/intercultural fluency ¹	3
	Oral/written communications	3
	Professionalism/work ethic/career management ¹	2
	Teamwork/collaboration/leadership ¹	3
IDST 450	Career Readiness Synthesis	1
Total Hours		18

¹

These areas may be satisfied with an approved experience. If the approved experience is assigned 0 credits (e.g., COOP 398) students must take three additional credits from the remaining categories.
